

## CÉLIANE™ WITH NETATMO, LEGRAND'S CONNECTED SOLUTION

Available since January 2018, Céliane™ with Netatmo is the first control solution for managing both usual home requirements (such as lighting, socket outlets and roller shutters) and extensions to include other connected devices (e.g. thermostat, door entry system, camera, etc.).

Products can be controlled both locally and remotely, using a switch, the Home + Control application, or directly by voice command.

Since the arrival in France of Alexa in June 2018, Céliane™ with Netatmo has become compatible with Amazon's Alexa voice assistant in addition to Google Assistant and Apple Siri, and Legrand has developed scenarios echoing our everyday uses.

For example, when leaving your home in the morning, simply say “*Alexa, activate the Leaving scenario*” to close your shutters, turn off the lights and switch off some energy consuming equipment. The Legrand and Amazon clouds collaborate for an enhanced experience and greater user comfort.

### **ABOUT LEGRAND**

Legrand is the global specialist in electrical and digital building infrastructures. Its comprehensive offering of solutions for commercial, industrial and residential markets around the world, along with well-known brands including Legrand, BTicino and Cablofil, makes it a benchmark for customers worldwide. Drawing on an approach that involves all teams and stakeholders, Legrand is pursuing its strategy of profitable and sustainable growth driven by acquisitions and innovation, with a steady flow of new offerings—including Eliot\* connected products with enhanced value in use. Legrand reported sales of more than €5.5 billion in 2017. The company is listed on Euronext Paris and is notably a component stock of the CAC 40 index. (ISIN code FR0010307819).
